

KARELDIRECT FLEEXO NATURAL

KAREL DIRECT FLEEXO NATURAL is a laser engravable polymer with a polyester back for dimensional stability. Designed for water base ink printing.

PRODUCT FEATURES

- Improved ink laydown
- High resolution engraving with CO₂ lasers
- Overall dimensional stability
- Roll format
- Consistent print

TECHNICAL DATA

Printing surface (Solvent-free)	Natural
Color	Red
Surface	Fineground
Carrier	Mylar
Nominal thickness 62 Shore A	1.70 mm
